EDUCATION

Ontario Tech University

Bachelor of Information Technology (Honours) – Networking and IT Security

Oshawa, Ontario

Graduated April 2024

TECHNICAL SKILLS

Security & IAM: SailPoint IdentityIQ, Saviynt, Nessus, Wireshark, Metasploit, Nmap, MFA/SSO, vulnerability assessment, incident response, access reviews

Ticketing & Enterprise Tools: ServiceNow, Jira, HubSpot, Microsoft 365 Admin, Active Directory, Azure AD/Entra ID, Git

Networking: DNS/DHCP, VLANs, firewall management, subnetting, VPN, Layer 1–3 troubleshooting

Operating Systems & Scripting: Windows 10/11, macOS, Linux, PowerShell, Python, Bash

PROFESSIONAL EXPERIENCE

Support Analyst

September 2025 – Present

LSquared

North York

- Resolve 50–100 weekly tickets within SLA targets across hardware, software, and account issues using Jira and HubSpot, supporting customers across North America.
- Cut ticket response time and manual workload by designing HubSpot automation workflows for ticket routing, follow-ups, and recurring support tasks.
- Handle MFA/SSO troubleshooting, access request reviews, and escalation of suspicious activity to senior IT for incident response.
- Eliminated onboarding configuration errors by developing PowerShell and Bash scripts that standardize new customer environment setup.
- Own end-to-end hardware fulfillment: imaging, configuring, and shipping devices to customers across North America.

Associate IGA Consultant

June 2024 – January 2025

IC-Consult

Remote

- Designed IGA processes in SailPoint IdentityIQ and Saviynt for enterprise clients, including access reviews, user lifecycle events, and provisioning policies.
- Delivered IAM implementation roadmaps in weekly sprints and translated complex access governance concepts into stakeholder-facing documentation and presentations.
- Earned SailPoint IdentityIQ Associate and Saviynt Level 100/200 certifications, becoming a go-to resource for enterprise access governance engagements.

Security Analyst Intern

September 2023 – December 2023

ARHT

Toronto, Ontario

- Reduced unauthorized access risk by 40% by conducting penetration tests and vulnerability assessments on web apps and internal infrastructure using Nessus, Wireshark, Metasploit, and Nmap.
- Supported uninterrupted media delivery for live holographic events by validating service-hardware compatibility across critical production systems.
- Strengthened security posture by delivering threat detection and remediation recommendations to engineering and leadership.

IT Support / Data Mapper

March 2023 – September 2023

Neuron Mobility

Whitby, Ontario

- Maintained 100% ticket resolution rate on hardware and software incidents through hands-on troubleshooting and internal documentation.
- Deployed GIS-based geofencing zones across Oshawa and Ottawa, optimizing fleet distribution and municipal compliance.

Technical Support

February 2021 – February 2023

Comcast Corporation

Remote

- Achieved 95% CSAT across phone, email, and chat support, resolving hardware, software, and network connectivity issues for a high-volume customer base.
- Administered user accounts, applied critical security patches, and supported system migrations across endpoint infrastructure.
