EDUCATION

Ontario Tech University

Bachelor of Information Technology (Honours) – Networking and IT Security

Oshawa, Ontario

Graduated April 2024

TECHNICAL SKILLS

Operating Systems & Scripting: Windows 10/11, macOS, Linux, PowerShell, Python, Bash

Support & Productivity Tools: Microsoft 365 Administration, Active Directory, HubSpot, ServiceNow, Jira, Git

Networking: DNS/DHCP, VLAN configuration, firewall management, subnetting, Layer 1–3 troubleshooting

IAM & Security: SailPoint IdentityIQ, Saviynt, Access Management, User Provisioning, Vulnerability Assessments

PROFESSIONAL EXPERIENCE

Support Analyst

September 2025 – Present

LSquared

North York

- Manage 50–100 support tickets weekly, triaging and resolving hardware, software, and account issues across the customer base while maintaining SLA targets.
- Designed and implemented HubSpot workflows to automate ticket routing, follow-ups, and recurring support tasks, improving response times and team efficiency.
- Own end-to-end hardware order fulfillment, including imaging, configuring, and quality-checking devices before shipping to customers across North America.
- Developed automation scripts to streamline new customer environment setup, reducing manual onboarding effort and minimizing configuration errors.
- Authored and maintained internal knowledge base articles, accelerating issue resolution and onboarding for new team members.

Associate IGA Consultant

June 2024 – January 2025

IC-Consult

Remote

- Contributed to the design of IGA processes using SailPoint IdentityIQ and Saviynt, including access reviews, user lifecycle events, and provisioning policies.
- Shaped and executed IAM implementation roadmaps, with clear stakeholder communication and weekly sprint participation.
- Completed SailPoint IdentityIQ Associate and Saviynt Level 100/200 certifications, strengthening team delivery on access governance engagements.
- Created internal documentation and delivered presentations to translate technical IAM concepts for non-technical business users.

Security Analyst Intern

September 2023 – December 2023

ARHT

Toronto, Ontario

- Performed penetration testing and vulnerability assessments across web applications and internal infrastructure, identifying a misconfigured authentication mechanism that reduced unauthorized access risk by 40%.
- Validated compatibility between critical services and hardware systems to support uninterrupted media delivery for live holographic events.
- Delivered actionable security recommendations to engineering and leadership, contributing to the protection of digital assets and company reputation.

IT Support / Data Mapper

March 2023 – September 2023

Neuron Mobility

Whitby, Ontario

- Resolved hardware and software issues with a 100% ticket resolution rate and authored internal documentation to streamline processes.
- Implemented GIS-based geofencing zones for compliance in Oshawa and Ottawa, optimizing fleet distribution and adherence to municipal regulations.

Technical Support

February 2021 – February 2023

Comcast Corporation

Remote

- Delivered customer support via phone, email, and chat across hardware, software, and network issues, achieving a 95% customer satisfaction rate.
- Administered user accounts and permissions and applied critical security patches while supporting system migrations and infrastructure projects.
