## EDUCATION

---

### Ontario Tech University

*Bachelor of Information Technology (Honours) – Networking and IT Security*

Oshawa, Ontario

*Graduated April 2024*

## TECHNICAL SKILLS

---

**Operating Systems & Scripting:** Windows 10/11, macOS, Linux, PowerShell, Python, Bash

**Ticketing & Enterprise Tools:** ServiceNow, Jira, HubSpot, Microsoft 365 Administration, Active Directory, Azure AD/Entra ID, Git

**Networking & Infrastructure:** DNS/DHCP, VLANs, firewall management, subnetting, Layer 1–3 troubleshooting, VPN, remote support tools

**Security & Identity:** IAM (SailPoint IdentityIQ, Saviynt), user provisioning, access reviews, vulnerability assessment, MFA/SSO, endpoint security, ITIL fundamentals, SLA-driven support

## PROFESSIONAL EXPERIENCE

---

### Support Analyst

*LSquared*

September 2025 – Present

*North York*

- Manage 50–100 support tickets weekly, triaging and resolving hardware, software, and account issues across the customer base while maintaining SLA targets.
- Designed and implemented HubSpot workflows to automate ticket routing, follow-ups, and recurring support tasks, improving response times and team efficiency.
- Own end-to-end hardware order fulfillment, including imaging, configuring, and quality-checking devices before shipping to customers across North America.
- Developed automation scripts to streamline new customer environment setup, reducing manual onboarding effort and minimizing configuration errors.

### Associate IGA Consultant

*IC-Consult*

June 2024 – January 2025

*Remote*

- Contributed to the design of IGA processes using SailPoint IdentityIQ and Saviynt, including access reviews, user lifecycle events, and provisioning policies.
- Executed IAM implementation roadmaps in weekly sprints, translating technical concepts into stakeholder-facing documentation and presentations.
- Completed SailPoint IdentityIQ Associate and Saviynt Level 100/200 certifications, strengthening team delivery on access governance engagements.

### Security Analyst Intern

*ARHT*

September 2023 – December 2023

*Toronto, Ontario*

- Performed penetration testing and vulnerability assessments across web applications and internal infrastructure, identifying a misconfigured authentication mechanism that reduced unauthorized access risk by 40%.
- Validated service-hardware compatibility to ensure uninterrupted delivery for live holographic events.
- Delivered actionable security recommendations to engineering and leadership, contributing to the protection of digital assets and company reputation.

### IT Support / Data Mapper

*Neuron Mobility*

March 2023 – September 2023

*Whitby, Ontario*

- Resolved hardware and software issues with a 100% ticket resolution rate and authored internal documentation to streamline processes.
- Implemented GIS-based geofencing zones for compliance in Oshawa and Ottawa, optimizing fleet distribution and adherence to municipal regulations.

### Technical Support

*Comcast Corporation*

February 2021 – February 2023

*Remote*

- Delivered phone/email/chat support across hardware, software, and network issues with 95% CSAT; administered user accounts, applied security patches, and supported system migrations.
